

U.S. EMBASSY NAIROBI

MEDICAL EXAMINATIONS FOR IMMIGRANT VISAS

Medical exams are required for immigrant visas and special cases. The medical examinations must be performed by one of the following Panel Physicians:

NAIROBI

International Organization for Migration (IOM)
Migration Health Assessment Center (MHAC)
78 United Nations Crescent
Off UN Avenue, Gigiri
Nairobi, Kenya
P.O BOX 55040-00200
Tel: 0734-860686/0731-974031
Email for appointments:
iombomedical@iom.int

NO OTHER MEDICAL EXAMINATIONS ARE ACCEPTABLE FOR VISA PURPOSES

Please note:

- Applicants will require a total of **five (5) photographs**. The medical center will require two photographs and the Embassy will require three photographs.
- Completion of all required tests takes at least two weeks. Be sure to schedule your medical appointment well in advance of your visa interview date.
- Note that the HIV blood test is no longer a requirement for immigration to the U.S. However, you may request the IOM Medical team to test you for HIV for your own benefit. Know that the results of that test will be included on the medical paperwork, but an HIV-positive status is **not** an inadmissible condition anymore.
- Please undergo your medicals at least 2 weeks before your visa interview but if you ever had a history of TB please undergo your medicals at least 8 weeks before your interview to allow IOM to complete your medical process in case further tests are required
